

**TOWNSHIP OF CRANFORD  
CRANFORD, NEW JERSEY**

**ORDINANCE NO. 2020-09**

**AN ORDINANCE TO AMEND THE CODE OF THE TOWNSHIP OF CRANFORD,  
PART III: HEALTH LEGISLATION, CHAPTER 255 LAND DEVELOPMENT, TO  
TEMPORARILY DELEGATE CERTAIN PLANNING BOARD DUTIES TO A CODE  
REVIEW COMMITTEE**

**WHEREAS** on January 31, 2020, the United States Department of Health and Human Services declared a public health emergency for the United States due to the highly contagious and deadly nature of the disease COVID-19; and

**WHEREAS** on March 9, 2020, due to the imminent danger to the residents of New Jersey posed by COVID-19, the Governor of the State of New Jersey declared a public health emergency and a State of Emergency through Executive Order No. 102; and

**WHEREAS** on March 16, 2020, the Governor of the State of New Jersey issued Executive Order No. 104 emphasizing the state-wide implementation of the social distancing guidelines recommended by the Center for Disease Control which specifies that individuals should avoid group settings and mass gatherings, and to maintain a physical distance of approximately 6 feet or 2 meters from others when possible; and

**WHEREAS** it was declared by the State of New Jersey that “bars and restaurants are locations where significant numbers of individuals gather in close proximity, making adherence to social distancing protocols impossible or impracticable” and that in order to “mitigate community spread of COVID-19, it is necessary to limit the unnecessary movement of individuals in and around their communities and person-to-person interactions in accordance with CDC and DOH guidance,”; and

**WHEREAS** through Executive Order 104 issued by the Governor of the State of New Jersey, “restaurants, dining establishments, and food courts, with or without a liquor license, all bars, and all other holders of a liquor license with retail consumption privileges” were, for all intents and purposes, shut-down excepting pick-up and delivery services as a means to help mitigate the community spread of COVID-19 throughout the state; and

**WHEREAS** in the Township of Cranford, there are fifty-nine (59) local businesses negatively impacted by Executive Order 104 that are classified as “restaurants, dining establishments, and food courts, with or without a liquor license, all bars, and all other holders of a liquor license with retail consumption privileges” located within the Special Improvement District alone with numerous others throughout the Township; and

**WHEREAS** the small businesses negatively impacted by the requirements established by Executive Order No. 104 employ hundreds of people in the Township of Cranford with an unknown number of persons who subsequently had to be released from employment; and

**WHEREAS** the full impact of the restrictions imposed on small businesses due to the on-going worldwide COVID-19 pandemic are not yet fully known; and

**WHEREAS** it is assumed that a scaled re-opening of the State will require a continuation of the social distancing requirements implemented by the Governor of the State of New Jersey through Executive Order No. 104 as recommended by the CDC and the DOH; and

**WHEREAS** an assumed scaled and limited ‘re-opening’ will inhibit those businesses impacted by the restrictions imposed by Executive Order No. 104 to fully recover or to operate at their full, permitted capacity; and

**WHEREAS** the Township Committee believes it is essential to mitigate the potential losses faced by the small businesses located within the Township and to protect the long-term economic stability and viability of the Township to the fullest extent practicable, while ensuring the effective and responsible practice of land use development and management in the Township in accordance with the goals and objectives of the Township’s Master Plan; and

**WHEREAS** the Township Committee recommends the temporary lifting of certain restrictions and requirements related to the creation or expansion of outdoor seating for “restaurants, dining establishments, and food courts, with or without a liquor license, all bars, and all other holders of a liquor license with retail consumption privileges” which have been severely impacted by the imposition of restrictions implemented through Executive Order No. 104 and the assumed continuance of social distancing requirements as the State of New Jersey inevitably begins a staged ‘re-opening’ and lifting of restrictions throughout the state.
